ALONZO COPLEN BURIED SUNDAY AFTERNOON

Funeral services were held Sunday afternoon in the Church of Christ in Mentone for Alonzo Coplen, aged 88 years, prominent farmer and stock dealer of the Tiosa community. He had been ill the past seven months and passed away at the home of his daughter, Mrs. Dallas Fletcher, last Thursday evening at 11 o'clock.

Mr. Coplen was born September 3, 1854 in Ohio and married Miss Elma Mickey December 11, 1875. She died in 1936. The deceased had been a member of the Church of Christ for many years.

Surviving besides Mrs. Fletcher are two sons, Leslie and Harvey Coplen, both of Argos; two daughters, Mrs. Alta Meyers and Mrs. Ethel Morrell of Rochester; a brother, James Coplen, of Rochester; a sister, Mrs. Tena Wlos, Warsaw; 19 grandchildren; great-grandchildren, and one great-grandchild.

Burial was in the Sycamore cemetery near Mentone.

SEVERAL FROM HERE ATTEND POULTRY CONVENTION

This part of Indiana was well represented at the 24th annual poultry convention held at Lafayette last week. Charles Manwaring and Hobart Creighton were named on the board of directors for the coming year.

Some of those who attended from this area were: Harold, Franklin and Delford Nelson of Burket; Forrest Kesler, Herschel and Max Nellans, Bernard Black, Hobart Creighton and Charles Manwaring of near Mentone.

PARENTS OF SON

Captain and Mrs. William F. Maxwell of Patterson Field Station Hospital, Fairfield, Ohio, are the proud parents of a son, James William, born Oct. 1 at the St. Ann's Hospital, Dayton, Ohio. The baby weighed seven pounds.

Mr. and Mrs. Roy C. Maxwell of one and Mrs. Sarah Cagle of two are the grandparents.

MENTONE TO HAVE NEW GENERAL STORE SHORTLY

Town Preparing to Serve Every Need of Trade Territory

SOCIAL, ENTERTAINMENT INCLUDED IN PLANS FOR COMPLETE SERVICE

After several weeks of concerted planning, the announcement was made this week that Fred Lemler, who has been operating a grocery store at Mentone the past several years, will open a new general store about Nov. 1. He has acquired the old furniture store and a contractor has been secured to modernize the front immediately so that merchandise already ordered can be placed in position and the store made ready for an early opening. There will be a wide and complete variety of all wearing apparel, dry goods, notions and groceries.

The past several years the people of Mentone have regretted the fact that they did not have the facilities to offer a complete service or supply all the needs of the surrounding community. Farmer friends were compelled to make expensive journeys to larger trading points to find many of the every-day articles they needed. Mentone, however, in many respects, has businesses that have had far more to offer than many larger cities, but has been lacking in ready-to-wear clothing establishments.

Months ago, realizing the burden that would be placed upon local people by the scarcity of tires, gasoline, etc. and the increased pressure of greater production and longer working hours in time of war, the people of Mentone have put forth every effort to remedy matters. The complete plans are still in the formative stage and cannot be announced at this time, but it is hinted that arrangements are being made to supply many hours of entertainment and social gatherings for the relaxation of all in the community.

We are now entering into an era of many changes, and many restrictions. The restrictions, however burdensome they may appear at first, will in reality bring us into a more normal routine that will afford us much pleasure, health, happiness and mutual prosperity. The assistance and suggestions of everyone—in town or in the country—to better our community, will be appreciated.

LAST WEEK FOR GARBAGE COLLECTION

We've been instructed to announce that this week will be the last week for garbage collection in Mentone this fall.

Sunday visitors at the home of Mr. and Mrs. Vernon Jones were Mr. and Mrs. Paul Jones and daughter and Mr. and Mrs. Ray Gripe of Elkhart; Mr. and Mrs. Ralph Mattix and three children of Claypool, and Clem Jones.

CELEBRATE 45TH WEDDING ANNIVERSARY SUNDAY

Mr. and Mrs. David Swick, who reside about a mile west of Mentone, celebrated their 45th wedding anniversary at their home Sunday. All the members of the immediate family were present at the dinner.

Mr. and Mrs. Swick, who are 66 and 64 years of age respectively, were married near Mentone and have resided near here all their lives.

The anniversary date was Oct. 2. Those present Sunday were Mr. and Mrs. A. O. Little of Huntington; Mr. and Mrs. Doyle Earwood of Detroit; Mr. and Mr. Hale Herd of Logansport; Mr. and Mrs. H. V. Johns and son David, Earl Smalley and son Jack and Mr. and Mrs. Swick.

TO SING OVER RADIO

Mrs. Earl Davis of rural route Tippecanoe, has been called to Chicago where she and her sister, Mrs. Margaret Souther, will sing on the Morris B. Sachs radio show Sunday evening, Oct. 11, from 5 to 6 o'clock, under the name of the "Powers Sisters." The ladies are daughters of Mr. and Mrs. Lon Walters of Mentone.

ENTERTAINS WITH WAFFLE SUPPER

Mr. and Mrs. Claude Sandifer, of North Hollywood, California, spent the last ten days visiting Mrs. Lyde Williamson of Mentone. Mr. Sandifer retired this year from his position as principal of the North Hollywood High School and has been visiting with relatives and friends in Indiana this fall. Mrs. Williamson visited with the Sandifers in California seven years ago.

Mrs. Williamson entertained the Sandifers with a waffle supper Tuesday evening, September 29th. Invited guests were Mr. and Mrs. Sandifer, Mr. and Mrs. Vance Johns and son David, Miss Jean Manwaring, Miss Wreatha McFarren, Miss Ora Pottinger, Mr. Pat Walsh and Mrs. Williamson.

REMEMBER Way Back When—

20 YEARS AGO

OCTOBER 5, 1922

The following new autos were seen on the streets of Mentone the past week:

John Minear, a new Ford coupe.
John Aughinbaugh, a new Ford sedan.

John Fenstermaker, a new Ford sedan.

Geo. Clark, a new Packard.

The editor wonders if he would have a new auto had he been named "John."

Mr. and Mrs. D. L. Bunner, Mr. and Mrs. C. W. Shafer and Mr. and Mrs. Jonas Eaton, spent Sunday at Culver.

Noah Eaton left Monday for Missouri where he expects to purchase some cattle to be brought to Mentone.

Mr. and Mrs. Abe Whetstone and Mrs. Mary Sarber, and son Albert, spent Saturday night and Sunday at Dowagiac, Michigan visiting at the Ed. Moore home.

30 YEARS AGO

Taken from Tri-County Gazette
Published by C. M. Smith

OCTOBER 10, 1912

Mrs. Thomas Warren, aged 88, who has been in poor health for some time, died at her home south of Burket last Friday. Her sister, Mrs. Yantis Beeson, aged 75, whose home was north of Mentone, was with her at the time of her death and apparently was in good health, but in the afternoon she was stricken with heart failure and died quite suddenly.

M. R. Kizer and Ed. Turner exchanged residences Tuesday.

Bring in your eggs while the price is good, 27c a dozen.

Mrs. W. R. Coomler, of Jonesboro, Ind., has been visiting the past two weeks with her daughter, Mrs. Bert A. Rush, and her grandson, Fred C. Rush.

Alice, the little 2½-year-old daughter of Rev. and Mrs. Martin, almost broke up the meetin' last Sunday morning by rushing in at the door and up the aisle to inform her papa who was preaching that her little baby sister had "falled off a chair." The stampede was prevented when it was learned that the baby sister wasn't hurt a bit.

40 YEARS AGO

Taken from Tri-County Gazette
Published by C. M. Smith

OCTOBER 9, 1902

O. M. Smith, a Seward township boy, writes a long narrative of his experiences in the Philippines while serving as a soldier.

Del Black and family started yesterday to Washington state where they expect to make their future home.

The Silver Lake Record says: "Allen Bybee and wife of Mentone, were guests at the Rantz home a couple of days the latter part of the week."

Artificial Breeding

The first experiments in artificial breeding were made by Dr. William Harvey in England during the Seventeenth century.

FISH REMOVED FROM REARING PONDS TO LAKE

The Mentone Conservation club, within the past few days, has taken over 77,800 bluegills from the rearing ponds on the Chancey Tucker farm and placed them in Yellow-creek lake.

The addition of these fish to the lake should have something to do with making the lake a better place for anglers. The sad part, however, was that those who usually have the most frequent fish stories to tell were noticeably absent while the work of draining the ponds was in progress.

12% INCREASE IN EGG PRODUCTION U. S. GOAL!

It's a Cinch! We
Increased Our Egg
Yield 33 1/3%

"Our egg production used to be as up-and-down as a ride on a roller coaster. That's because every time the temperature took a nose-dive, we were too busy keeping warm to bother about laying eggs. Then our boss insulated our laying house with Celotex Vapor-seal Sheathing. Since then we've consistently turned out a third more eggs from the same-sized flock."

Progressive poultrymen are guaranteeing their quo-

tas in Uncle Sam's "Food for Freedom" program by insulating their buildings with Celotex Vapor-seal Sheathing. By maintaining constant, warm temperatures in laying houses, this efficient structural insulation encourages increased egg production. Used in brooder houses, Celotex Insulation also aids chicks to grow rapidly and feather out evenly.

Put Your "Egg Factory" on a War Production Basis. Our Free Plans Tell You How!

Leading Poultrymen know that the Celotex Poultry Building Plans are the last word in modern poultry house construction. Come in for your free copies today!

A CHALLENGE TO THE OPTIMISTS

There's so much pessimism in the world today that anything of an optimistic nature is like the proverbial "man bites dog" story. Here's an advertisement that appeared in The Publisher's Auxiliary last week:

POST-WAR PLANS REQUIRE
job for experienced weekly managing editor. Also consider lease. Communiques invited now. Pvt. Bill Berger, Serv. Co., 377th Inf., Camp Swift, Texas.

The gentleman above is not only very much of an optimist but is making plans for the future.

In our everyday work it is a settled fact that if we would go forward with the same enthusiasm and initiative as we did in the past we would be far better off financially and otherwise.

RATIONING TO ADD TO ROAD DIFFICULTIES

It is often an easy matter to see something that is wrong and to find an easy remedy—until you attempt to trace the reactions of such changes. It is so with gasoline rationing.

The first, last and only reason ever mentioned for giving us gasoline rationing is to save tires. If there is a rubber shortage, regardless of whether it is because someone failed to do his duty or because of some other unfortunate circumstance, then it is up to us to find the most logical solution to the problem. Gas rationing, however, may be a mighty expensive experiment, possibly conceived in good faith but may grow amid much disfavor.

Thousands of second-grade tires have been rotting away in the frozen tire stocks of the nation the past few months, as everyone knows that an idle tire dies if not exercised regularly. Of course, rationing adds "color" to the build-up necessary to get Americans in the proper receptive mood for synthetic tires or war-period reclaim tires produced in an un-

competitive market. It's the necessary prelude to the con-jurer's big act.

Rationing, however, will be responsible for many other burdens above that of restricted use of your auto. Of necessity, train, bus and taxi fares will be found necessary, and many of the state highway departments will be completely bankrupt. In the past, the gasoline tax has been stretched to meet the cost of highway maintenance and repair, and this winter the departments will have a much more difficult time keeping the roads free of snow. Heavy traffic usually whips the snow off before it reaches a depth sufficiently large to impede or endanger highway traffic, but with restricted travel, it will be a real burden and expense. Add to this the cost and administration of the rationing, and the loss that will come from disposing of millions of gallons of low-octane gas, it will be an

expensive experiment. Our government—you and I—have accepted the responsibility of financing this war, and every cent that is spent is ours and we will have it to pay eventually. In producing 100-octane gasoline for the bombers and fighters a great percentage of the by-products is car and truck gasoline. Storage facilities now at or near the refineries, has been practically exhausted and it is a known fact that it must be either moved or destroyed. If destroyed, not only the cost of the fuel but the expense of destroying it will be added to the price of 100-octane fuel.

Add to all this the economic loss to the communities precipitated by the closing of several business establishments and the resultant loss of taxable incomes that ordinarily would accrue to the benefit of township, county, state and national units it will be quite a sum to pay. Farmers and laborers will

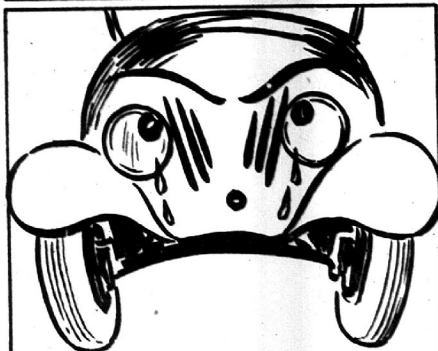

pay their share of this added burden and should be given a little consideration in the benefits. Farm products, from all reports ever compiled or released by anyone other than oil firm representatives, is the least expensive base for synthetic rubber.

LIONS ENTERTAINED WITH INDIAN PICTURES

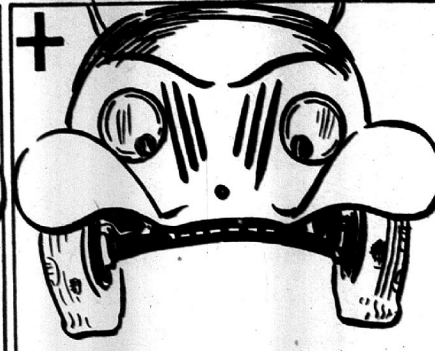

The members and guests of the Mentone Lions club were entertained Wednesday evening with moving pictures taken on a tour of the southwest United States last fall. The color displayed in some of the Indian ceremonies was beautiful to behold and many of the scenes gave a fine view of many of the wonders of nature in the southwest. Mr. Boyes, editor of the Plymouth Pilot, who took the pictures on a trip there last fall, was present to narrate as he showed the many scenes. Mr. Boyes was accompanied by Mr. Cox of the Marshall County Trust & Savings Bank.

BASEBALL TEAM FINISHES SEASON

Mentone's baseball team, managed by Phillip Blue, finished their season successfully last Sunday by beating the Ft. Wayne V. F. W. team 6 to 0. Inasmuch as the Ft. Wayne team was in the Ft. Wayne Federation league, and had a good season, the local victory was impressive. The boys played well despite atmospheric and ground conditions which would have discouraged a duck. Only two errors were made, both on hard chances. Ed. Creakbaum returned to action after several weeks lay-off due to a sprained back, and pitched a fine game, retiring after 7 innings in which he had allowed only two hits. Dick Geiger came on to pitch the last two innings and allowed no hits. The final score showed Mentone 6 runs, 10 hits, 2 errors; Ft. Wayne 0 runs, 2 hits, 2 errors. Herschel Linn led the hitters with 3 for 4.

For the season the local boys won 9 and lost 4. Ed. Creakbaum pitched in 10 games, winning 6 and losing 2. Merle Shively won one and lost one. Dick Geiger won one, Bill Blue won one and Herschel Teel lost one.

Herschel Linn led the hitters with an average of .480 for the season. Joe Worshaw had the highest average, .529, but appeared in only six games. Ed. Creakbaum was the local "Babe Ruth" with two homers, three triples and four doubles out of 14 hits. Orie Vandemark and Ike Shirey led the base stealers with 5 each. Don Paxton hit the most doubles, 5, while Herschel Linn got the most hits, 24, and the most bases on balls, 6. The team as a whole batted .312. We are not publishing the manager's batting average, but we do want to remind you skeptics that even Joe Gordon batted only .095 in a world series, so you can't be too critical about a barber.

Seriously, we all owe thanks to

"Flip" for his work in managing the team and seeing to all the details. He helped to provide us with good local entertainment at a time when we need it. The team as a whole should receive our thanks. Incidentally, they finished the season with a financial deficit of about \$35, incurred for balls, bats, visiting team guarantees (10 games were played here), etc. The boys can dig down in their own pockets for this, but it would be better if those of us who saw and enjoyed the games would contribute 50 cents or a dollar apiece to pay the bill. Since no regular admission charge was made throughout the season, voluntary contributions were the main source of income. If you want to help out on this, give your money to any of the team members, or to Manager Blue, Editor Cullum, or Dr. Urschel. It will be much appreciated.

Dan Urschel.

The last issue of The American Magazine, in the picture section, appeared a picture of a group playing a parlor War Game. The game, even though but three or four years old, has many ardent followers in all parts of the nation, and it is so mathematically designed that it has literally "made monkeys" of many a Navy Admiral. A few weeks before the German pocket battleship Graf Spee was chased into the harbor of Montevideo, this War Game, being played in the home of the originator, Auther Fletcher Pratt of New York City, proved that three small naval vessels could overcome a giant battleship, but Navy men present scoffed. The game is played with model ships and planes of all types used, and the mathematics involved takes into consideration the speed of the ships, number and size of guns, thickness of armor, etc. Mr. Pratt, in between writing fourteen books, serving as reviewer for a number of publishing houses and serving as columnist and Naval advisor for the New York

Post, has carved out over 3,000 scale ship models and equipped them with guns, planes, lifeboats, and all. The editor was privileged to see this game played in Mr. Pratt's home a couple of years ago, and the participants included those in the picture now appearing in the American. Mrs. Pratt and Mr. Cullum were schoolmates in Circle, Montana "some time ago."

Bible Study (Thursday) ... 8:00 p.m.
A hearty welcome to all.
C. G. VINCENT, Minister.

FIRST BAPTIST CHURCH Mentone, Ind.

You Are Ever Welcome To This House of God.

"Of all the institutions of our country there is none more important than the Sunday school. The right lessons learned in Sunday school fortify against temptations of later life. Our Sunday schools retain something of the true American spirit that made ours one of the greatest nations of the world. Many leaders in the nation's affairs attribute much of their success to the Sunday school. Its power for good cannot be overestimated and its opportunity for service to the world is greater today than ever."—Frank R. Reid.

FORGIVENESS OF SINS METHODIST MORNING THEME

The series of sermons based on the Apostles' Creed which Rev. Victor E. Stoner has been preaching will be continued when he speaks on "The Forgiveness of Sins" next Sunday morning at the Methodist Church. In the evening time an evangelistic theme will be used.

The three divisions of the Youth work will be resumed Sunday evening when the Juniors, Intermediates and Seniors will each meet at 6:30.

Prayer will be discussed at the Bible Study Hour on Thursday evening. This service will be followed by choir rehearsal at 8:30.

The Ladies of the W. S. C. S. will have a Penny Supper on Saturday evening of this week, the proceeds

This is the day of the so-called "scientific" mind, the generation of those who must have proof before they will accept a truth. How often do we hear someone say, "I cannot take anything on faith. You have to prove something to me before I believe it." With these words some people explain their refusal to accept the salvation which God offers, since this salvation is by faith.

As a matter of fact, even in the realm of science faith goes before proof. The scientist believes—that is, he has faith—that certain chemicals mixed together will produce certain results. Therefore, in the laboratory he mixes the chemicals to prove by experiment whether the thing he believes is true. A physician has faith that a certain drug has power to cure a disease and because he believes the drug has power he tries the drug in the treatment of the disease.

God asks us to apply this same sort of faith in the realm of the spiritual. His invitation is, "O taste and see that the Lord is good" (Psalm 34:8). All God asks is that we try Him. Such a challenge from

the God of the universe to the race which He created should appeal to the "scientific" mind.

When one scientist has definitely demonstrated that a certain fact is scientifically true, other scientists accept his proof and go on from there in their research without having to re-prove the truth which he has established. It is not necessary to establish proof of the fact that the blood of the Lord Jesus Christ can change men's hearts and give them a new nature. This eternal truth has been proved in the lives of countless thousands. In any other field than the spiritual, the "scientific" mind would accept such overwhelming evidence without a moment's hesitation. Yet here in the realm of the spiritual men not only decline to believe that which has been thousands of times proved by others but they also refuse to make the experiment themselves. "Believe on the Lord Jesus Christ, and thou shalt be saved" (Acts 16:31), says the Bible, but the "modern, wise, and scientific" mind says, "You will have to prove that to me." The proof lies in believing. When we believe we prove.

—Released by the Gospel Fellowship Association.

to be used on the budget of the society.

Twelve representatives of the church attended the annual District meeting of the Women's Society of Christian Service Wednesday of this week. About 500 women from the Warsaw district were present.

Future events are:

District Lay Activities Meeting on Oct. 11.

District Education Conference Oct. 30.

Veterans Day and Pulpit Exchange Nov. 15.

VICTOR E. STONER, Minister.

NUGGETS FOR BEREANS

In the first chapter of the epistle to the Ephesians is laid the basis of all Christian doctrine and practice. It is the work of the triune God in the believer. It may be outlined thus;

1. The will of the Father.
2. The work of the Son.
3. The witness of the Spirit.

Just because of His good pleasure, and not because of any just deserts on our part, He hath blessed us with all (not part of them) spiritual bless-

ings in heavenly places, chosen us before the overthrow, predestined us unto adoption, and given us access;—all these of course in Christ.

The Son has redeemed us (bought us back from bondage of sin) with His blood. With this is included the forgiveness of sins. Also it is revealed that all things are to be put under Christ, both in heaven and on earth.

The work of the Spirit now is that He seals each one who trusts. The seal is both a sign of ownership and security. This seal is the earnest or pledge (we would say a down payment or lay-away deposit) to guarantee our final redemption which is the resurrection of the body.

You will notice that there is no work called for on the part of the believer in any of these transactions, but it is a finished salvation. The summing up is in Chap. 2, verses 8 and 9, "For by grace are ye saved through faith; and that not of yourselves: it is the gift of God: not of works, lest any man should boast."

Have you realized this as a personal experience?

—Oscar M. Baker.

Buy your coal now—The Coop.

REMC SUPERINTENDENT ATTENDS REA CONFERENCE

Mr. Orr, superintendent of the Kosciusko county REMC which operates 460 miles of electric lines serving more than 1500 farmers, schools, churches and other establishments in this area left Oct. 4th for the National Rural Electrification Administration headquarters at St. Louis, Mo. where he is attending the 21st conference of superintendents and managers of REA-financed rural electric systems during the week of October 5th. More than 75 superintendents and managers from Ohio, West Virginia, Indiana and Michigan have been invited to attend.

REA Administrator Harry Slattery and other national officials were to address some of the sessions, while others will be given over to round-table discussions in which the men attending and members of the REA technical staff will exchange information in town-meeting style. The part REA systems are playing in the war effort, with special emphasis on the use of electricity in producing food and relieving the farm labor shortage, will be subjects for discussion. With the use of vital war materials curtailed, ideas and plans for home-made electrical equipment adapted to farm use will be exchanged and discussed.

REA systems all over the country are now serving Army landing fields, air beacons, naval and marine bases, ordnance plants, a large aluminum plant, mines producing critical materials, and numerous small industries processing needed foods and producing war equipment.

ABOUT "ATHLETE'S FOOT" DID YOU KNOW?

1. The germ imbeds itself deeply?
2. You must reach the germ to kill it.
3. It takes a strong penetrating fungicide.
4. TE-OL solution made with 90% alcohol increases penetration. Feel it take hold.
5. You can get one ounce test size bottles at any drug store. Today at Shafer & VanGilder's.

Our Loss -- YOUR GAIN

Due to the recent freakish cold weather we have had an unusually heavy "drop" of apples. With the labor and container situation as it is we have decided to open up our orchard for a few days to the general public. Come and pick up your winter supply at one-third to one-half the regular price. But you will have to

News of Mentone and Vicinity

Fred Lemler and Earl Shinn made a business trip to Fort Wayne on Tuesday.

Mr. and Mrs. Virgil Nelson, South Bend, spent Thursday with Mr. and Mrs. Ernest Williamson.

Mr. and Mrs. Ernest Williamson spent Sunday evening with Mr. and Mrs. Vernon Jones.

Mr. and Mrs. Dean Bowen, from Quincy, Michigan, spent Sunday with his parents, Mr. and Mrs. L. C. Bowen.

Mrs. Bud Todd and infant daughter returned to their home Friday from the Murphy Medical Center at Warsaw.

Mrs. Mary Bidelman, of Sevastopol, brought in a total of 40 keys to the

key collection box at the post office Tuesday. This, so far, has been the largest single contribution.

Sgt. Don Lyons, of Kelly Field, is home on a ten-day leave and thoroughly enjoying his visit with his wife, mother and other relatives and friends. He looks swell and says that he never knew what work really was until the past few weeks.

Some of those from a distance who attended the funeral of Alonzo Coplen at the Christian Church in Mentone Sunday were Mr. and Mrs. C. E. Coon of near Argos; Mr. and Mrs. Esta Large of northeast of Tippecanoe. Those from Mentone and vicinity included Mr. and Mrs. Milton Kesler, Mr. and Mrs. Coalfax Heighway, Mr. and Mrs. Jo Little, Mr. and Mrs. Jay Long and Mr. and Mrs. J. D. Long.

Myrl Wagner, son of Mr. and Mrs. E. E. Wagner, who enlisted in the Navy a few weeks ago, is home on a short visit and is really selling the Navy to the young boys here. Myrl is only 17 and been in the service just about a month, but is acw a first class seaman. He said they had to stand at attention for two hours waiting for President Roosevelt to review them recently.

CARD OF THANKS

We sincerely thank our neighbors and friends for taking care of our potatoes and cane, and for the many other acts of kindness shown during our misfortune.

SEE THE CORN YOU BUY

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which ones suit you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, scattered throughout the corn-growing areas.

Another reason why you should visit your DeKalb proving ground is to keep acquainted with the newest varieties that DeKalb is continually perfecting.

Be sure to visit the DeKalb proving ground in your neighborhood. Your DeKalb dealer will be glad to show you the varieties that you are interested in and what they will do for you on YOUR FARM.

REV. VINCENT TO GO TO ST. LOUIS, MO.

C. G. Vincent, minister of the Mentone Church of Christ for five years, resigned last Sunday, effective Oct. 25. Mr. Vincent has accepted work with the South Side Church of Christ at Saint Louis, Mo., and will begin his labors there on November 8. He will visit relatives in Louisville, Ky., and Memphis, Tenn., before going to his new field. Mr. Vincent will give his farewell sermons on October 25. He announces the following subjects for that day:

Sunday morning, 10:30, "Blest Be The Tie That Binds," and at 7:30 p. m., "Our Right to Sneer at The Folly of the Military Aggressor."

It is expected that large audiences will be present at both services to hear these final messages of the beloved minister who is held in high esteem by the entire community.

PURCHASE LAKE TRAIL CAFE

A deal was completed Tuesday whereby Cloyce (Kelly) Eherenman, formerly of here but late of Bourbon, took over the ownership and management of the Lake Trail Cafe at Mentone.

Mr. and Mrs. Eherenman will move to the apartments above the restaurant.

Word from Emory (Ikey) Davis, who is in the Navy, recently stated he had seen the other side of the world in the last two months. He had been to the Coral Sea, New Caledonia and New Hebrides Island. He saw a little of the excitement that happened in the Solomons. He had cut 53 heads of hair at 65c a head and began to get pretty good at it. He reported pretty nice weather this trip. They rationed the food as they feared they might run out before they got back into port. He stopped in San Francisco, the first he had been there since February. He says he weighs 174 pounds although he has lost four pounds since last writing. Emory had flowers—roses and ferns—sent to his mother for her birthday, which was Monday.

PARENTS OF DAUGHTER

Mr. and Mrs. Robert Enyert, of Mishawaka, announce the arrival of Marilyn Louise, on October 5th, who weighed seven pounds 13 ounces. Mr. and Mrs. Herschel Enyert, of Mishawaka, are grandparents and Mrs. Etta Haltermän of Mentone is a great-grandmother of the new arrival.

ENTERTAIN SUNDAY

Mr. and Mrs. Howard Horn had Sunday dinner guests honoring the birthdays of Mrs. Horn's mother, Mrs. Chas. Davis and her little niece, Dianne Davis. Those present were Mr. and Mrs. Ed Mower, North Manchester; Mr. and Mrs. Royce Bemerderfer and daughter, Chili; Mr. and Mrs. Earl Leedy and daughter and Mr. and Mrs. Chas. Davis of Warsaw, and Mr. and Mrs. Earl Davis and two children of Tippecanoe.

RUSSELL BORTON MARRIED

Russell (Pete) Borton, son of John Borton of Mentone, and Miss Lila Lee Snell, daughter of Mr. and Mrs. Richard Snell of Warsaw, were married at the home of Rev. A. V. Hayes at Winona Lake last Saturday evening. The bride is employed in the offices of the Litchfield Creamery company and Mr. Borton is employed at the Northern Indiana Cooperative Association at Mentone.

WORK STARTED ON STORE FRONT REMODELING

Workmen started Wednesday on the job of remodeling the front of the old furniture store building that will be used for the new general store to be opened by Fred Lemler in the near future.

TOWN HALL OPEN TO FARMER MEETINGS

We've been requested to announce that the town hall, above the fire station at Mentone, has been fixed up and is available to any group to hold meetings of a community nature. The invitation includes those in the rural areas as well as in town.

BUSINESS MEN MEET

The majority of the business people of Mentone met at the town hall one evening last week to discuss plans of vital importance to the entire community. One of the important things discussed was the need for entertainment and recreational facilities for the community during the coming months. There is a real need for these necessary functions in the community, and it is to be hoped that some of the plans now under consideration will be brought about and be beneficial to the folks of the entire community, which includes both the rural and urban populace.

ANOTHER RECORD BROKEN

Charles Meredith, who has been hobbling around on crutches since he wrenched his back a few days ago, came in with a sack containing 97 old keys for the key collection one day this week. Charlie might have made it a hundred if he had been in better shape to get around, but he more than doubled the previous individual record.

There is a container at the post office and one at the Country Print Shop where the keys can be left.

The receipts from the sale of the old keys will be contributed to the USO and the metal in the keys will help to alleviate the shortage of vital metals.

CLASS PARTY AT TALMA

The members of the Worth White class of the Talma Methodist church will hold their monthly class meeting at the home of Mr. and Mrs. Charles Good in Talma on Tuesday evening, October 20, at 7:30 P. M. There will be a community supper held and each member is to bring a dish of something and their own table service. There will be a short business meeting held following the supper.

All members are asked to attend this meeting.

—Lavoy Montgomery, Class Reporter

Buy your coal now—The Coop.

MENTONE HOME ECONOMICS CLUB MET THURSDAY

The Mentone Home Economics club met on Thursday, October 8th, at the home of Mrs. Lenna Anderson. Mrs. Eloise Long was assisting hostess.

Creed and prayer were given in unison. History of the song of the month was given by Blanch Paulus. The songs, "Sweet and Low" and "The Church in the Vale," were sung.

Roll call was responded to by telling "Favorite Family Recreation."

The mystery package was won by Eloise Long.

New officers for 1943 are: Mrs. Linnie Anderson, president. Mrs. Helen Weirick, vice president. Mrs. Edith Darr, sec'y-treasurer. Mrs. Blanch Paulus and Mrs. Eloise Long, adult leaders.

Mrs. Pauline Weissert and Mrs. Mary Borton, junior leaders.

Mrs. Esther Sarber, reporter.

Mrs. Eva Laird and Mrs. Ottie Swick, flower committee.

A contest was won by Esther Sarber and Eva Laird.

The Hallowe'en party will be a pot luck supper on Saturday night, Oct. 31.

Refreshments were served to 13 members and two guests, Mrs. Coplen and Patsy Harrison. The November meeting will be with Mrs. Nora Teel.

—Reporter.

FELLOWSHIP GROUP HAS SURPRISE PARTY

The members of the Youth Fellowship Group of the Methodist church had a surprise party on Oct. 9 for Myrl Wagner, who is in the Navy.

Thirty-four members were present for the party. Georgia Dillingham, the president, presented Myrl with a navy testament.

Cake and ice cream were served for refreshments.

The members of the Youth Fellowship Group all wished Myrl lots of good luck while in the service of his country.

NEWS?—PHONE 38

What You Buy With WAR BONDS

A scout car is a low-slung motor car armored with heavy steel plate, used to transport troops from one point to another. It is of low silhouette and gives protection against machine gun and other ground fire. A scout car costs \$5,000.

You and your neighbors joining together can buy one of these vehicles for the Ordnance Department of our army with your purchase of War Bonds. We need hundreds of them and need them quickly. Put at least ten percent of your wages or income into War Bonds every pay day and help your fellow Americans top the War Bond quota in your county.

OCTOBER 16, 1902

Frederick Tinkey, aged 62 years, died October 11th.

Two masked men entered the W. E. Davis store at Burket last Thursday morning, blew open the safe and secured \$160. Homer McGinley, who was sleeping in the store, knew nothing about what was going on until he awoke and found a lantern shining in his eyes and a man holding a gun. He was ordered to put his hands

up and promptly replied that "they were up." He was ordered to open the safe but denied knowing the combination. They said if he didn't open it they would put him on top of it and blow it open. He told them to go ahead. However, they chose to tie him securely, put him back to bed and cover him up. The first explosion wasn't enough to open the safe but the second also blew out a side of the building. They then made good their escape.

Mr. and Mrs. Samuel Horn celebrated their 25th wedding anniversary last Sunday.

12% INCREASE IN EGG PRODUCTION U. S. GOAL!

It's a Cinch! We
Increased Our Egg
Yield 33 1/3%

"Our egg production used to be as up-and-down as a ride on a roller coaster. That's because every time the temperature took a nose-dive, we were too busy keeping warm to bother about laying eggs. Then our boss insulated our laying house with Celotex Vapor-seal Sheathing. Since then we've consistently turned out a third more eggs from the same-sized flock."

Progressive poultrymen are guaranteeing their quo-

tas in Uncle Sam's "Food for Freedom" program by insulating their buildings with Celotex Vapor-seal Sheathing. By maintaining constant, warm temperatures in laying houses, this efficient structural insulation encourages increased egg production. Used in brooder houses, Celotex Insulation also aids chicks to grow rapidly and feather out evenly.

Put Your "Egg Factory" on a War Production Basis. Our Free Plans Tell You How!

Leading Poultrymen know that the Celotex Poultry Building Plans are the last word in modern poultry house construction. Come in for your free copies today!

ARTLEY D. CULLUM, Ed. & Mgr.

MY APOLOGIES, A HYBRID—

A few weeks ago when Mr. Jeffers, a railroad man, was named to rule over motor transportation, I was skeptical. And so were thousands of others, but indications to date are that the man is not typical of most such appointees, but has been making a firm stand, without fear or favor, wherever he has met opposition. Like a true American, he has dared to voice his opinions in a clear, determined and concise manner even in the den of the "patronage pack." Even Cotton Ed, or whatever he is called, failed to bend his adamant will with the quotation of: "He who eats my bread shall sing my song."

I may not always agree with you Mr. Jeffers, but I'll fight to the end for your right to speak forth boldly and quickly. This isn't a time for needless quibbling or political scheming. To win we must act today, favoring America and her sons, not her sons-of-guns.

"SHADOWS . . ."

January 7, 1942—just one month after Pearl Harbor, the editor of your newspaper published a full-page editorial under the above title. It didn't appear to mean very much at that time, and likely many of our readers didn't take the time to study it thoroughly. However, with rationing in the past and more pending, shortages of this item or that commodity, and the futility of attempting to go to a strange store to buy coffee, the article is being reprinted:—

"Coming events cast their shadows before them, it has been stated by the wise sage of the past, and it appears the faint outlines of the shadows are getting more distinct each day.

"Who" will be "Coming Event's" traveling companions?

It is highly probable that the demands of the emergency will put further restrictions upon our everyday lives—reduce the scope of our activities and more clearly define our base of oper-

ations.

"A faithful, considerate and willing friend may have much to do in alleviating some of the troublesome details of which the shadows are warning us.

"Your local merchant has served faithfully through the years—remained true and determined in the face of concerted attacks by foreign and oftentimes unscrupulous competition. He has continued to serve to the limit of his abilities—to the extent to which we have served him.

"With rationing of many items we may see the day when we will need the friendly recommendations, endorsements or assistance of our community business friends. One who has tried to cash a check in a strange city realizes how helpless and all alone one feels under such circumstances.

"Protect your friendship 'credit' as zealously as you would your financial credit standing. "The harvest depends, primar-

ily, upon the quality and quantity of seed which you plant. May your 'harvest' be cause for much thanksgiving."

And nine months later we may add: The game isn't over at the end of the first quarter—Let's not let it end until the score is in our favor.

PATRIOTISM ON THE HOME FRONT

I don't know whether there has ever been a unanimous decision on that old question of whether the hen or the egg was produced first, but that has little to do with this article. It is a known fact that the land was settled with farm folks before towns were built.

The towns were created to provide various services at a central or convenient location. The townspeople or business people chose the locations because they saw an opportunity in giving service to the area round about them. They accepted this responsibility and it has

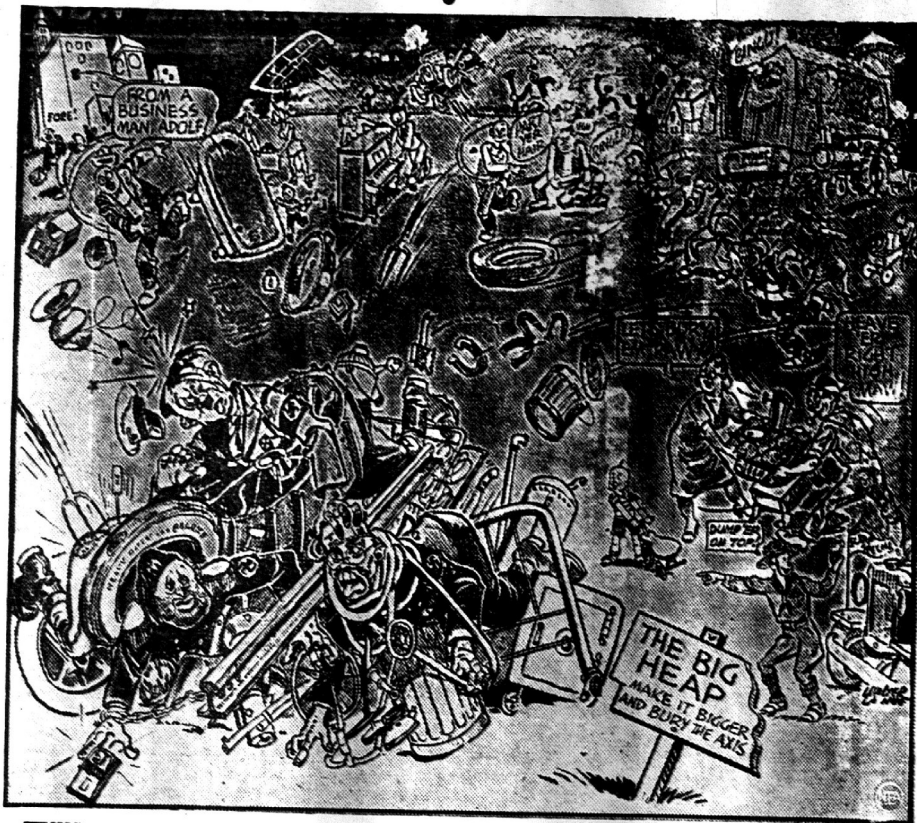

never been absorbed by any other group.

There is a patriotic duty on the "home front" too, and it is to provide and give the service which the community has need of. It isn't a one-sided obligation, either. The folks in town and the folks on the farm, are dependent upon one another for their very existence. One group has no social or economic claim which the other does not share. Our everyday routine may vary, or our very work may require somewhat different dress, but that is necessity. I could model for a first-class sap if I'd start out into a muddy hog lot on a rainy morning in a pair of tan oxfords and a bank president that went around the bank in a pair of rubber boots would be a "natural" for the screwball token.

Our work is all important; our problems are mutual, and the patriotic obligations rest equally upon our shoulders.

Let it never be said that any one failed—ever.

"NOT A SLACKER IN THE LOT . . ."

THIS cartoon was first published by the Omaha World-Herald, originator of the "Nebraska Scrap Plan." In three weeks the people of Nebraska collected 136,171,012 pounds of scrap metals for war industries. That was 103.4 pounds per capita for every man, woman and child in the state. (NAME PAPER) believes that the Citizens of (NAME STATE) are equal to Nebraska's challenge. Let's get out the scrap to bury the Axis!

NEWCASTLE**TOWNSHIP NEWS**

By Lavoy Montgomery

Mr. and Mrs. Charley Walker and son are spending some time in Indianapolis.

Mrs. Charles Good is spending a few days in Warren the guest of her parents.

Mrs. H. E. Imbler has returned to her home in Logansport after a visit with her brother and wife, Mr. and Mrs. Lou Grove.

Lavoy Montgomery has resumed his duties at the Grove hardware after a two weeks vacation.

Mr. and Mrs. Robert Calvert and family entertained at dinner Sunday Mr. and Mrs. Al Large and family of Leiters Ford.

Mr. and Mrs. Fred Barr and son Billy of East Chicago, Indiana spent the week end here the guest of her parents, Mr. and Mrs. Frank Arter.

Bobby Kramer is on the sick list. Gene Tippy and Carl Shoemaker are spending some time in Salt Lake City, Utah.

Mr. and Mrs. Estil Bryant and daughter of near Akron, were Sunday guests of his parents, Mr. and Mrs. Philip Bryant.

Mrs. Lee Tippy, who has been on the sick list, is improving.

Miss Virginia Hubbard is enjoying a vacation from her duties at the Lambs grocery and meat market.

Mrs. Mary Jo Gray, of Rochester, was the guest of her parents, Mr. and Mrs. Ernest Bryant Thursday.

Mrs. Frank Copen, Mrs. Bill Copen and son Steve and Mrs. Harry Wenger and son Danny spent Friday afternoon in Rochester.

Mrs. Charley Green, who has been on the sick list for some time, is able to be out and around again.

Mr. and Mrs. Loren Kramer and family spent Saturday evening in

Rochester.

Mr. and Mrs. Ralph Hatfield spent Sunday evening in Rochester.

Jackie Tippy, of Rochester, spent the week end here with friends.

Mrs. Cleo Teeter, of Fulton, was the recent guest of her mother, Mrs. L. W. Hatfield.

Mrs. Geo. A. Stockberger is on the sick list.

Mr. and Mrs. Lou Grove are spending a few days in Logansport.

MORSE CODE CAN BE USED FOR MUCH ENJOYMENT

The International Morse Code is used in many branches of human endeavor, but there are few people who have even the slightest idea of how to spell a word with it. All of us have heard the intermittent squeals on the shortwave band of our radios and likely wished we could tell what the sender was saying, and one cannot think of a telegraph station without hearing the clatter of the soundboards. The code is used today in many methods of transmission of messages.

One never knows when knowledge of the code might be of great help or even save your life. Miners trapped in cave-ins have tapped out messages to their rescuers, and there

are hundreds of possible needs or uses of it. If the ravages of war should come to our land as it has to other peoples of the world, ability to use and understand it would be of untold value.

Learning the code isn't difficult and during the winter months when the children are denied outdoor recreation, they can get many hours of pleasure out of using the code in a number of games. In the hope that some may use it, the code is printed below. On the radio, the dot represents a short signal and the dash a long one. On wire telegraphy, the elapse of time denotes whether it is a dot or a dash.

Names Embroidered for Guests
Italian hostesses of the Seventeenth century embroidered the names of their friends in their table cloths in colored silken threads, indicating where they were to sit.

What You Buy With WAR BONDS

These huge 60-ton heavy tanks cost \$120,000, and America's automotive and locomotive plants are turning them out on a never-ending assembly line. Our army uses light tanks, weighing 14 tons, and medium tanks of 28 tons also, but we favor the medium tank over the other two.

These heavy tanks are needed for certain phases of modern warfare, and with their thick armor and heavy-gauge guns they are almost unstoppable. They are considered superior in gun power, in maneuverability and in the power of their huge tractor motors to Axis tanks. Americans everywhere are helping to pay for these monsters of war through their purchase of War Bonds. Invest at least ten percent of your income in War Bonds every pay day.

FEW CENTS EXTRA FOR TIGHT WINDOW FRAMES IS GOOD INVESTMENT

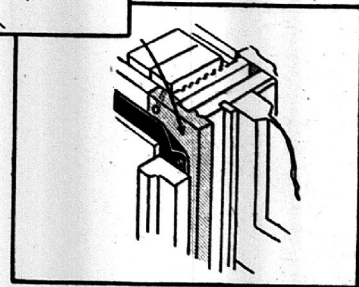

LEAKY JOINT

This is the kind of in-different window frame construction that is used in many new homes. It results in drafts and dirty walls around windows. Arrows point to where cold air leaks in.

TIGHT JOINT

Contractors call this wide blind stop construction. It cuts air leakage more than half around window frames. Costs just a few cents extra per window. Arrow points to wide blind stop.

Don't overlook the importance of the lowly window frame when you build your new house. It is the one thing that permanently joins your windows with the framework of your house. A window frame properly constructed keeps out dirt and drafts by making a weathertight joint with the wall. A window frame indifferently constructed will allow as much as 174 cubic feet of air per hour to leak into your home, air that is often loaded with dust, to dirty up walls and cause drafts.

Good Construction Costs Little

Wide blind stop construction in window frames has been in use for many years, yet jerry builders will use

frames without it in order to cut costs without regard to consequences. This type of construction costs about 30c to 50c more per window opening than ordinary construction and it will quickly pay for itself in heat saved and added comfort.

Window Frames Permanent

Remember window frames are a permanent part of the wall in your new home. To tear them out and replace them is not only a mess but a big expense as well. The easiest way to avoid leaky window frames in your new home is to buy frames that make a weathertight wall joint and that means wide blind stop construction.

STILL BUYING SCRAP METAL

There is still a serious need for scrap metal of all kinds and every citizen is requested to get it into important use as quickly as possible. It isn't necessary to donate the scrap and we have been advised that scrap dealers are still paying 50c a hundred pounds.

WRITES FROM NORTH CAROLINA

Dear Sir:

Since I have been transferred to another camp I feel it is in line for me to inform you of my change in address.

I have been receiving the Co-Op News weekly and enjoy reading it very much as it contains news of my home community and by being a former employee of the N. I. C. A. I am interested in news around the Co-Op.

During the first week of August they divided the division I was in and made two airborne divisions. So in order that we get the airborne training they had to move us near an airport.

Starting the first of last week they have since moved the two divisions, one here to Fort Bragg, North Carolina. We are stationed here on the edge of a very large airport.

I am now in the 327th Glider infantry of which we are to be transported by large gliders pulled behind large transport planes.

So far I have not seen any of the gliders here at this airport. I did, however, see two of the gliders being pulled behind a plane when we were on the train coming over here from Camp Claiborne.

I enjoyed the train trip over to this camp for we got to see a lot of country and sights.

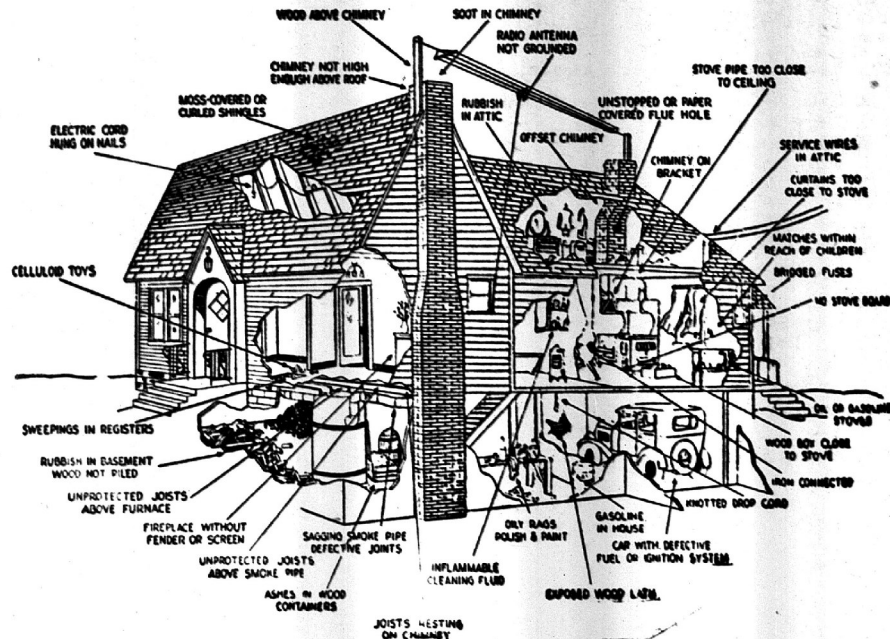

I have not been here long enough to say how I am going to like it, but so far I like it fine and the weather here is much better as it is not near as damp here.

It is nearing time for lights to go out as all lights must be out at 9:30 so will close.

Tell Oliver Teel, Ed Ward and all the Co-Op employees I said Hello. Pfc. Herschel P. Schoemaker Ft. Bragg, N. C.

FIRE HAZARDS IN A TYPICAL INDIANA HOME

Sixteen hundred houses like this in Indiana were destroyed last year by fires, many of which started in the indicated locations. Extreme importance of eliminating these hazards is seen in the curtailing of production of household equipment, such as radios, electric refrigerators, ironers, washers and even many types of domestic cooking appliances. For the duration, it will become increasingly difficult, if not impossible, to replace many valuable or semi-necessary it-

ems of domestic equipment. Insurance can protect you against financial loss, but it cannot guarantee replacement of your home and its original equipment if destroyed by fire. The attic is the Home Fire Hazard No. 1; the closet is No. 2; the basement is No. 3. Home clean-up will prevent fires and yield countless articles which may be salvaged, given to charities, or sold to waste material dealers. Such waste materials as iron, rubber, rags and paper can

be converted into war materials and help win the war.

For the past several years Indiana has won the National award for fire prevention activities. All citizens of Indiana are urged to lend full cooperation in this campaign. Careful attention to the points of danger listed in the above illustration should result in the elimination of numerous unnecessary hazards in Indiana homes, according to Robert Hamm, State Fire Coordinator of the Indiana State Defense Council.

NUGGETS FOR BEREANS

In Daniel 9:24 we have another example of an outline in which we have 6, the number of man, included in 1, making divine perfection.

1. Seventy weeks are determined upon thy people and upon thy holy city.

1. to finish the transgression,
2. and to make an end of sins,
3. and to make reconciliation for iniquity,
4. and to bring in everlasting righteousness,
5. and to seal up the vision and prophecy,
6. and to anoint the most Holy.

The Bible student has had no difficulty in determining that a week here is a period of 7 years. But what most Bible teachers have failed to see is that the 70 weeks are not only determined upon Israel, but upon the holy city as well. Consequently they have figured the 70 weeks determined as beginning with the decree to

restore Jerusalem. In verse 25 the time given unto the Messiah is "seven weeks and threescore and two weeks." The 7 weeks mentioned here does not belong to that determined period of 70 weeks, but just measures the time from the decree to the restoration and the dedication of the temple. So if we figure the time as beginning at the restoration, we have the 62 weeks to the Messiah. After that, He is cut off (crucified). But on the cross he prayed that they might be forgiven and the prayer was answered, so during the period covered by the book of Acts the Kingdom is reoffered and 5 more weeks pass. However at Acts 28:28 Israel is set aside and so there are 3 weeks yet to be fulfilled, not one. During the first 2 of these will be the conversion of Israel and the setting up of the churches of Asia (Rev. 2 and 3). A covenant will be made with them by a world dictator which will be broken in the midst of the last week. A period of testing

or tribulation will begin at that time and run for 3½ years at the end of which will occur the rapture and resurrection as recorded in 1 Cor. and 1 Thess.

This is very brief, but provides a skeleton into which all related Scriptures fit perfectly and does away with many controversial questions that have plagued Bible students for so long a time.

— West Main St. —

News of Mentone and Vicinity

Mr. and Mrs. Howard Clipp and son Billy of Elkhart, spent Sunday at the Granville Horn home.

Myrl Wagner was to leave early Thursday evening to Great Lakes, Ill. where he is in naval training.

The game after the last game of the season held at Mentone Sunday afternoon resulted in a seven to nothing win for the County All Stars.

It has been announced that Ed Smelzer is home on a short furlough prior to entering an officers' training school.

The game had not been previously announced and was "scheduled" after most of the fans had been advised that baseball was ended for 1942.

M. O. Mentzer reports the sale of the 68-acre Stucky farm east of Harrison Center, to Mr. and Mrs. Loren Dorsey.

Mrs. John Latham has been confined to her bed the past week with a bad case of lumbago. Her daughter, Mrs. Fawn Janke, is caring for her.

Mr. and Mrs. Walter Boice, of Troy, Ohio, and Mr. and Mrs. Arlie Cormican and daughter Janice of Elkhart, were Sunday guests at the John Latham home.

Miss Kathleen Anderson left Monday for Denver, Colorado where she has accepted a position with the Army Air Forces technical training command. She was formerly with the command in North Carolina.

A farewell party was given Mr. and Mrs. Chester Ballengar Friday evening by friends and neighbors. Mr. and Mrs. Ballengar will move in the near future to their new home.

Sunday guests at the home of Mrs. Allie Lyon included Mr. and Mrs. John Lyon and sons Frank, John and Don of Attica, the Misses Betty Lyon and Pauline Jones, of Indianapolis.

A card from Millard H. Cox, 4927 No. Keystone Ave., Chicago, reports that he has sold his 11-acre property one mile west of Mentone to Mr. Carlos Carrasco, 842 West Wrightwood Ave., Chicago.

Artley Cullum, as deputy district governor of Lions clubs in this area, attended a meeting of other Indiana deputies and the district governor, Dale Waterhouse of Hamilton, at Kendallville Sunday afternoon.

Mr. and Mrs. Howard Kohr have moved to their new home in the west part of town, and Howard, who not only sells, erects and services windmills but does his best to keep the gentle zephyrs moving to assure dependable service, informs us that his telephone number is now 144.

The Mentone Trap club had planned to hold a few trap shoots this fall, but the shortage of shells and other matters, has brought about a postponement of the plans. Instead, the club is disposing of the shotgun shells to club members so they can be used for fall hunting.

The birthdays of Jon Cullum and Oscar Wiles were celebrated simultaneously last Tuesday at the Artley Cullum home. Other dinner guests were: Mrs. Fred Carey, Mrs. Esta Reed, Mrs. Bertha Cullum and Ned

Reed and Wm. Glassley of South Whitley; Oscar Wiles of Akron, and Mrs. Emma Gardner of near Larwill.

Miss Mary Jean Kalmbacher, who is a member of the WAAC's at Des Moines, Iowa, arrived home Monday for a ten-day furlough.

DOUBLE WEDDING AT METHODIST CHURCH OCT. 17

In a pretty double ceremony Saturday evening at 7:30 in the Methodist church here, Frances and Betty Shipley, daughters of Mr. and Mrs. Devon Shipley, were married to Boyd Enos and Dean Zile, respectively. Over one hundred guests were in attendance. The single ring ceremony for each couple was read by the Rev. S. M. Hill of Mentone, who had also married the brides' parents.

The church was candle-lighted for the nuptials, and the altar decorated in fall foliage. Preceding the ceremony Mrs. Herbert Shipley of Winona sang, "O, Promise Me," and "At Dawning." Mrs. E. G. Summe was at the piano, and played the wedding march. The brides were given in marriage by their father, Lowell Arnold and Robert Snyder were ushers.

Both brides wore tailored aqua two-piece dresses, with corsages of roses and sweet peas, and black accessories.

All four of the young people are graduates of the local school and well known here. Enos is the son of Mr. and Mrs. John Enos and Zile the son of Mr. and Mrs. Earl Zile. The brides have been employed in Hammond, Frances with the Bell Telephone Company and Betty at the W. C. Conkey Publishing Company. Enos is in radio work in Chicago and Zile is employed in Whiting at the Carbon Carbide Company. Both couples have rented apartments in Hammond.

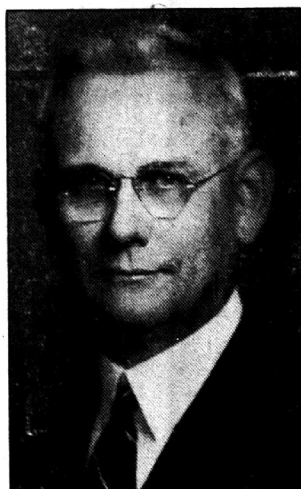

Following the ceremony there was a reception in the church annex. The wedding cake and punch were served by the following girls: Betty Helsler, Martha Carr, Jane Warner, Jean Jontz, Eileen Jontz.

FIRE SCHOOL TO BE HELD SUNDAY AFTERNOON

Wm. Collison, of Winona Lake, was in Mentone Monday afternoon and announced that the regular fire school for the volunteer and auxiliary will be held Sunday afternoon, Oct. 25, at four o'clock at the town hall.

MR. VINCENT TO GIVE FARE- WELL SERMONS ON OCT. 25

Services at 10:30 A. M. and 3:00 P. M.

Arrangements are being made to make Bro. Vincent's last Sunday with the Mentone Church of Christ one which will long be remembered by Mr. Vincent and the Mentone community.

The congregation has had five enjoyable and fruitful years under his devoted and courageous leadership. The church has not only served its intended purpose in the life of the community, but the building and parsonage has undergone extensive improvements and enlargements. A spiritual monument has been built that will endure throughout the years to come.

Mr. Vincent expects to use as his text for the message at 10:30, "Blest Be The Tie That Binds," and doubtless his years as a missionary in a foreign land and the work he has done in many of the states will enable him to use that text in a forceful and endearing manner.

At the noon hour the congregation and its friends will go to the school house where they will enjoy a basket dinner.

Promptly at three in the afternoon Bro. Vincent will preach his last sermon in Mentone before going to St. Louis, Mo., where he has accepted

BIG HALLOWE'EN PROGRAM BEING PLANNED HERE

A committee has been busy the past few days making arrangements for a Halloween program to be held at Mentone on Saturday evening, October 31st.

Several dollars in cash prizes will be awarded following the masked parade, a bingo game is planned and the band will furnish the music for the evening. Complete details are not available but it is expected that other entertaining features will be added.

Prizes will be awarded for the following:

- Largest masked group, \$5.
- Most unique couple, \$2 and \$1.
- Best character represented, 1st \$2, 2nd \$1.
- Couple with most elaborate costume, \$2.
- Best clown, 1st \$1, 2nd 50c.
- Movie character portrayed, 1st \$1.50, 2nd \$1.
- Best masked boy, under 12 years, \$1.
- Best masked girl, under 12 years, \$1.
- Oldest person masked \$1.

Watch for advertising bills and announcement next week.

Miss Blanche Rees, a member of the Canadian Womens Aviation Corp stationed at Detroit, spent Sunday with Mr. and Mrs. H. E. Nottingham.

work with the South Side Church of Christ.

The farewell sermon is being preached in the afternoon, so Mr. Vincent's friends in Mentone and vicinity can come to hear him without being absent from their usual place of worship.

The subject for the afternoon message will be "The Folly of the Military Aggressor." All are invited to come and hear this message.

It is expected that there will be a large attendance at the services Sunday. It will be an opportunity for all to show their appreciation for the friendship and work of a sincere and devoted minister, and all will wish him continued success and happiness in his new field of endeavor.

SOLDIER-TO-BE HAS MANY VISITORS

Ralph Good, who is leaving for the army Thursday, Oct. 22, has enjoyed visits from a number of friends of late at the home of his sister and brother-in-law, Mr. and Mrs. Homer Warren, of Claypool.

Saturday evening guests were: Mr. and Mrs. Russell Good of Argos, Mr. and Mrs. Louis Kraatz and daughter of Palestine, Mr. and Mrs. Elva Warren, Claypool, Mrs. Rhea Landis of Giliad.

Mr. and Mrs. Russell Good, daughter Joan and son Wendell and Mr. and Mrs. Herman Alderfer and son Russell Lee of Argos; Paul Good of Columbia City; Mr. and Mrs. John Irwin and son Jimmie of Burket; Mr. and Mrs. Elva Warren and sons Bobbie and Layne and Mrs. Rhea Landis and two sons were present for Sunday dinner. Afternoon callers were Mr. and Mrs. Tommie Meredith.

Tuesday evening Mr. and Mrs. Ed. Creakbaum and family and Mr. and Mrs. George Creakbaum and family spent the evening at the Warren home.

FRED LEMLER IS HAVING STORK TROUBLES

Fred Lemler, the quiet and unassuming proprietor of a Mentone grocery who is to open a general merchandise store in the old furniture building shortly, knew that with priorities, shortage of stocks of merchandise, shortage of labor and all, that he undertook a big job when he decided to open his store, but one thing slipped in that he didn't figure on—the stork. That old bird seems to pay no attention to the world in general but flits wherever and whenever he so desires.

Sunday evening one of the boys working on the remodeling of the store building went to Ft. Wayne where he was met by Mr. Stork. The new boy was welcome but the father was off duty Monday. One of the other boys working there jumps every time a car coasts by too fast. He's looking for the same bird.

This had better stop shortly. Fred is ready to declare a moratorium for the duration right now.

12% INCREASE IN
EGG PRODUCTION
U. S. GOAL!

It's a Cinch! We
Increased Our Egg
Yield 33 1/3%

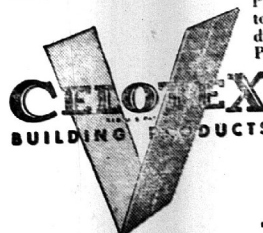

"Our egg production used to be as up-and-down as a ride on a roller coaster. That's because every time the temperature took a nose-dive, we were too busy keeping warm to bother about laying eggs. Then our boss insulated our laying house with Celotex Vapor-seal Sheathing. Since then we've consistently turned out a third more eggs from the same-sized flock."

Progressive poultrymen are guaranteeing their quo-

tas in Uncle Sam's "Food for Freedom" program by insulating their buildings with Celotex Vapor-seal Sheathing. By maintaining constant, warm temperatures in laying houses, this efficient structural insulation encourages increased egg production. Used in brooder houses, Celotex Insulation also aids chicks to grow rapidly and feather out evenly.

Put Your "Egg Factory" on a War Production Basis. Our Free Plans Tell You How!

Leading Poultrymen know that the Celotex Poultry Building Plans are the last word in modern poultry house construction. Come in for your free copies today!

ARTLEY D. CULLUM, Ed. & Mgr.

IN MEMORY

One year ago this writer, and the community, lost a true friend. Like all such cases, it was difficult to understand, but that has been the plan of life since the beginning of time.

Charles Krathwohl was a sincere worker for everything that would benefit Mentone and community. He wasted no effort in the use of hypocritical "politeness" but dug deeply into the heart of every problem and possibility with no thought save success.

My acquaintanceship with him was short, but our visits were pleasant. I'm sure many of his thoughts shall inspire me as long as the Creator permits me to labor in the present realm.

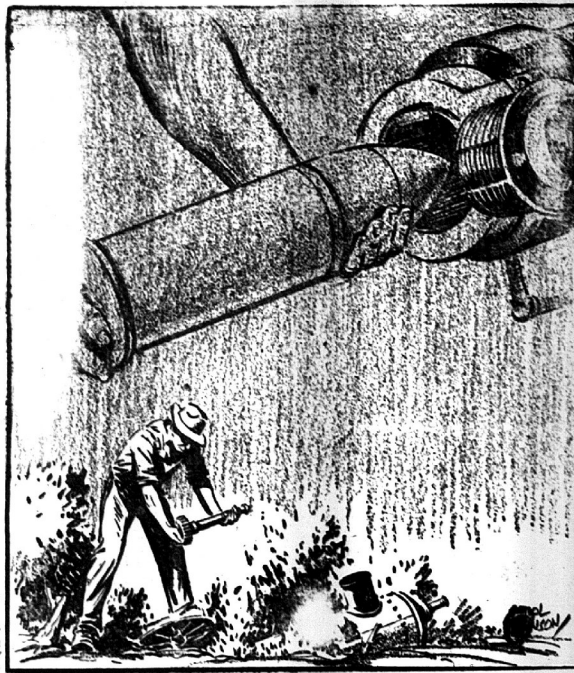

DOES YOUR BOY ENJOY THE NEWS?

Since the first selectees entered camp following the first draft registration October 16, 1940, the Co-Op. News has been sent free of charge to the boys in the armed forces. The work to do this is no small matter today when the number is as large as it is, but there are no complaints on our part. We're glad to do it, as we feel all the boys enjoy hearing from their home town.

But do the papers each week have any news of your boy's family in them? Wouldn't he like to know what was going on out in his old neighborhood? I believe he would, and this article is an appeal to interested fathers, mothers and friends to give us the news to print for your boy.

There are rural areas where a number of items could be secured each week. We'd like reporters from all such areas to send us the news each week or as often as you can. Envelopes and stamps will be supplied to all who will report the news in their community each week. And if everyone who has visitors, goes visiting, puts some improvements on the old home place—anything that is news—

BEHIND THE GUN

would mail it to us, phone it in or drop it on the news box on our front door, what a newspaper we could have.

With your help we can make the newspaper a better one to send to the boys away from home.

BOYS ARE GOOD SPORTS

There are times when it appears as if some people still think that boys and girls are a bunch of wild hoodlums, or some such thing just as mean and unnecessary.

Having lived but half of the allotted three score and ten, I may not be able to speak with full authority, but I've always found that boys and girls—full of life and action as they may be—are good sports. Once in a while their unbounded ambition and quick decisions allow them to do deeds that are not too commendable, but they must learn as we did. One quirk of humanity is that it cannot be told—it must find out for itself.

The tradition of Hallowe'en, wherever it may have originated, is such that boys and girls must celebrate one way or another. Given courteous treatment and invariably they will extend the same courtesy.

This Hallowe'en, boys and girls, there are reasons for us to be more careful with our fun. We should not destroy any property or waste any food or commodity that the people of the world need. That's our obligation and I believe we can see that we don't destroy. There are a good many ways in which we can have a lot of fun and still have no complaints. Black cats, spooks, goblins and all the weird noises that go with them can bring a lot of fun.

Young Americans, have all the fun you can, but be good sports and play the game like real boys and girls. Tell your friends we're counting on them too. In all the communities in which I've ever been the boys and girls have never failed, and I believe you folks are just as good as any of the others. I'm betting on your side.

WHERE'S THE SQUAWKERS?

Our ears have been ringing for years from the loud outbursts that have always followed every suggestion that the government take over any private property or industry. It was always "interfering with 'free' enterprise," etc. But when we're called upon to deliver all

auto tires over five there appears to be nothing but assent by silence. The same principles are involved—mandatory release of all title, authority or opportunity.

Personally, the ruling, or order, doesn't matter a particle, but the inconsistency of the thing may be like the story of the camel wanting to put his head in the tent. And it also brings to light the false claims that have been made in the past to forestall all other such confiscations.

If tires and cars are to be "drafted," then let it be done in like manner as to humanity. Classify every car. If a family owns two or more cars, put all in 1A except one. When no family has more than one car, then draft them.

OVER FOUR MILLION POUNDS OF SCRAP IN THIS COUNTY

The county salvage committee report issued this week shows that over two thousand tons—four million pounds—of scrap iron have been produced in Kosciusko county since the first of March.

March, April, May and June accounted for over 850 tons. July and August figures were not available but the committee's estimate for this period was approximately 400 tons. The September total was 325 tons, and the first two weeks of October brought in over 500 tons with several piles yet unweighed.

Over \$1,000 has been received from the sale of donated scrap and this money will go to the stipulated charities.

These figures are not only impressive but complimentary. However, the search for needed scrap iron is not over, and it is to be hoped that everyone who has not done so, make a thorough search of their premises before the winter snows come and hide the precious bits of scrap still scattered around.

(Talma Reporter)

Staff Sgt. Max Bybee, aged 20, of Hammond, who was one of the nine persons killed Friday when an army transport plane crashed and burned in a prairie near Chicago, was a former resident of Fulton county. He is the son of Mr. and Mrs. Max Bybee of Hammond and he was reared on a farm seven miles northeast of Rochester in Newcastle township.

Sgt. Bybee attended the school at Talma until his parents moved to Hammond to reside. Survivors are his parents, two brothers, Carl and Howard of South Bend; two great-aunts, Mrs. Flora Bugbee of Logansport and Mrs. Ehrenmen of South Bend, and a number of cousins who live in and around Rochester. One of the cousins is Frank Bryant of Rochester.

VIRGIL (DOC) LIDGARD DIES OF HEART TROUBLE

(Talma Reporter)

Virgil (Doc) Lidgard, 61, of Ham-

let, Indiana, died Thursday evening, Oct. 15 at 8:00 p. m. from a heart ailment. He had been ill for the past year and seriously ill for the past four weeks.

The deceased was born Oct. 18, 1880 in Royal Center. His parents were Mr. and Mrs. John Lidgard. On January 20, 1910 he was married to Inez Cook. Mr. Lidgard lived near Talma and Rochester all his life and was well known in the community. His occupation was farming. He was a member of the Methodist church of Talma and the F. A. M. lodge.

The survivors are: the wife, of Hamlet; five daughters, Mrs. A. Sumpter and Mrs. Nellie Sumpter of Bremen, Mrs. Irdythe Kerdig of Kingsbury, Mary Lidgard and Joyce Lidgard of Hamlet; two brothers, John of Royal Center and Willard of Logansport; one sister, three grandchildren and several neices and nephews.

The funeral services were held on Monday afternoon, Oct. 19, at 2:30 p. m. at the Talma Methodist church, with Rev. Kennedy of Twelve Mile in charge of the service. Interment was made in the Nichols cemetery five miles north of Akron.

NOTICE

As several complaints have come to my attention, of disturbance of property, and other nuisances, perpetrated in the abuse of a much too liberal and premature observance of the spirit of Hallowe'en, may it be noted that any acts of vandalism, disturbance of property, or nuisances in general, even though carried on under the guise of a so-called Hallowe'en prank, are to be constituted as breeches of the peace, and punishable under the laws of the community.

Your cooperation is requested in observing as well as assisting in enforcing those laws, by reporting violations to this court.

This notice is issued with the ap-

You Are Ever Welcome To This
House of God.

"The Sunday school, from the beginning of American history, has constituted perhaps the strongest strand in the fibre of child training," Karl A. Bicknell, president United Press Association. The American Magazine says that "We need the fine moral influence of the Sunday school." And all we have to do here in Mentone is to look about us and we can see that we need more of its moral influence. Are you doing your part in giving your children the benefit of the influence of the Sunday school?

TALMA TOWNSEND CLUB MET AT AKRON TUESDAY EVE.

Mr. Otis L. Ailer was in Mentone Wednesday and announced that the Talma Townsend club had a splendid meeting at the Wm. Sands home at Akron Tuesday evening. There was

a good attendance.

The meeting was a regular session and various phases of the Townsend movement were discussed. During the course of the evening a letter from Emmett Ferguson, democratic candidate for congress and a member of the Lafayette club, was read. The

members appreciate Mr. Ferguson's interest in the Townsend movement.

Harry Clymer is president of the Talma club and Blanche Ailer is secretary.

Light refreshments were served following the meeting.

The Co-Op. can serve you daily.

Buried Treasure . . .

All the genius of science, politicians or humble man combined have never been able to altar the course of the sun or moon, and as surely as daylight follows darkness so does winter follow in the wake of fall. Some people prefer one season over another, yet there is always something in the season "just ahead" that is inviting. As summer fades, we look forward to fall with its radiant colors and cool and frosty mornings. In the winter we anticipate the friendly, pure snow and visualize the joy that comes with the Christmas season.

Winter and snow will be with us almost any day now and the very face of the earth will be buried. Underneath that blanket of white may lie many precious bits of scrap metal that is vitally need in the war effort. It is our duty to get it picked up or located, lest it lie buried for several months.

War is a matter of taking life . . . or giving up life. Cruel and inhuman as it may appear, it is a question of one life or another. Selling all our scrap may mean that the life of a soldier we know may be spared.

THE MUSHROOMS ARE OUT AGAIN

Thursday, October 22, 1942 Mrs. H. L. Poulson, of Mentone, discovered that her rock garden was inhabited by a number of mushrooms. The particular specie was not determined but the one brought into the News office was about seven inches tall and better than two inches thick. The thing was hollow and as white and creamy as a first class angel food cake. It had a cap about two inches tall on the upper hand, evidently prepared for a blizzard.

Mr. Will Glassley, of South Whitley recently favored the editor with some red raspberries bushes and one or two of them were covered with delicious fruit, completely matured.

NEW "THEATRE" AT MENTONE

The outdoor theatre moved indoors Thursday evening and a good crowd was present to enjoy the pictures.

A committee of Mentone people have been busy the past few days planning, negotiating and otherwise maneuvering to get the old Ford garage room fixed up for the benefit of the public. Regular moving pictures included in their plans while roller skating, and several other entertainment features are contemplated.

Talking 'Mute' Lands in Jail; Forgets His Card

SALT LAKE CITY, UTAH.—Four "deaf mutes" supposedly working their way through college recently ran afoul of Salt Lake City police when one of their number talked.

Police arrested the "mute" after a customer, whom the youth had tried to sell a 10-cent package of bandages, reported the matter. Taken to headquarters, the youth forgot all about a card he carried explaining that he was a mute and began to talk fluently.

His story led to the arrest of three companions at a tourist camp. All three carried the same kind of cards.

The suspects—two of them from Georgia and two from Wisconsin—told officers they had been averaging about \$20 a day with their "racket."

Fickle Dog Upsets the Dignity of This Court

NEW YORK.—Jacob Solomon and Irving Zimmerman went before Magistrate Joseph Flynn to prove the disputed ownership of a dog.

"Here Rudy!" said Solomon. The animal tore across the court room and licked Solomon's face.

"Here Captain!" shouted Zimmerman. Similar doings.

"Hey you!" the judge said from the bench. The pup bounded right up and licked his face.

"I give up," said Magistrate Flynn. "Case dismissed."

SOMETHING FOR US TO SHOOT AT

NUGGETS FOR BEREANS

"Thy Word is a lamp" says the Psalmist. Apart from the Word there is no other source to which we can turn in our search for light amidst the darkness, nothing that can give life to the sinner, or shed abroad in the heart "the peace that passeth all understanding." Science cannot achieve it, and although education can do much, it fails to meet the deep innermost needs of the heart. God's Word alone is the one source of life, light, and peace.

We might ask the question, What is the difference between the Christian and the man of the world? The answer is simply this: the Christian believes what God has said in His Word, and the man of the world does not. Think of that outstanding figure of scripture truth, ABRAHAM. Out from a world of idolatry God

called him forth, and revealed to him His intention of blessing him and his seed, and the scriptures record the simple, yet overwhelming fact, "and Abraham believed the Lord." Abraham's knowledge of things was practically nil, but he heard and he believed.

In our own day knowledge has made great strides, but let us remember that it is not so much a case of what we know, but what we KNOW and BELIEVE. "Faith cometh by hearing, and hearing by the Word of God." Rom. 10:17.

The written Word and the LIVING Word, CHRIST, are woven together, they cannot be separated. The written scriptures reveal, not a creed, but a PERSON. His entrance into the believer's heart and life brings a conviction that shatters all our preconceived ideas of God and His ways with men, and when the day of trou-

ble comes, as come it will, we can say with Paul, "Nevertheless, I am not ashamed, for I know WHOM I have believed."

—Oscar M. Baker.

News of Mentone and Vicinity

Dorothy Nottingham, of Indianapolis, spent Sunday with her parents, Mr. and Mrs. H. E. Nottingham.

Mr. and Mrs. Guilford Cook and daughter Gloria, of Oak Park, Ill., and Miss Avonelle Blue of South Bend, spent the week end with Mrs. Effie Personett.

Mr. and Mrs. Otis L. Ailer, of near Talma and Mr. and Mrs. Lee of South Bend, were in Mentone Wednesday attending the auction sale and visiting at the J. D. Long home.

Miles Kesler, son of Mr. and Mrs. Isaac Kesler, arrived home this week on a 15-day furlough from his duties in the quartermasters department of the armed forces. He is now located at Indio, California.

Mrs. Howard Gross and sons Richard and Loren Dean and Mrs. Clarence Taylor and son Clarence, Jr., arrived home Tuesday morning from Kansas City, Mo., where they spent three days visiting Corp. Howard Junior Gross who is in the Signal Corp radio school there.

Mr. and Mrs. Joshua Garwood expect to leave for their winter home at 208 Rush St., New Smyrna Beach, Florida, Thursday. Mr. Garwood is anxious to get down there before the fishermen get all those sea bass and is taking the train instead of his car. He figured that 35-mile-an-

hour restriction would make the trip too tiresome.

Clarks store now has about 55 pictures of soldier boys on display in their window. Mr. Clark states, however, that there are about fifty others whose picture he does not have and would like to get them whether they show the boy in uniform or not. If the picture shows him in civilian clothes, it can be exchanged if and when the picture in uniform is secured.

Robert Nottingham, who is stationed with the marines at Quantico, Va., had planned visiting his parents a few hours one day last week, but was called back soon after he had started for Mentone. The flood in the east, too, unbeknown to him, was so great that he could not have made the trip. The marines were called upon for rescue work and to otherwise aid in the stricken area. Two small towns near Washington were reported completely washed away.

CARD OF THANKS

To all my friends and neighbors who have so kindly remembered me with expressions of sympathy and love, I extend my heartfelt thanks.

MRS. BURNS ELECTED STATE D.A.R. VICE REGENT

October 13 and 14 Mrs. Ray Linn, of Mentone, attended the D. A. R. State Conference Held at the Purdue Memorial Building, West Lafayette. On Tuesday evening Mrs. Linn gave the nomination address for Mrs. Furel R. Burns as a candidate for the office of State Vice-Regent. Wednesday Mrs. Burns was elected to this important office in the state organization.

READING CLUB HOLDS FIRST MEETING OF PROGRAM YEAR

The Mentone Reading Club held its first meeting of the year Wednesday evening at the home of the president, Mrs. Wayne Tombaugh with Miss Flora Holt and Dora Taylor assisting.

A delicious potluck supper was enjoyed by the members of the club and one guest.

A short business meeting was held and a report of the district convention was given by Mrs. Artley Cullum and Mrs. F. B. Davison.

The program was on the soldier and his:

Housekeeping, Mrs. Elmore Fens-termaker.

Religion, Mrs. Orpha Blue.

Food, Mrs. Harold Weissert.

Recreation, Mrs. Fred Lemler.

Handbook, Mrs. E. G. Harrison.

The next meeting will be held at the Mentone Methodist church with a special speaker, Dean Bechtol, state vice chairman of the American Legion. The community chorus will furnish the music. The meeting will be open to the public.

Hail Seldom Falls

Although there are five recognized types of falling frozen water—snow, hail, sleet, graupel and glaze, hail seldom falls during the winter.

LIONS ENTERTAINED BY IMPERSONATOR

Ted Knox, of Larwill, royally entertained the members of the Mentone Lions club with his homely impersonations and readings. Wednesday evening, Mr. Knox really put on an interesting performance. A large group of young boys, guests of the club, really had a fine evening, too. The meal prepared by the ladies was especially appetizing.

BRANT—HUFF

Oro D. (Phil) Brant of near Mentone, and Mrs. Pearl Huff of South Bend, were united in marriage Sunday evening, Oct. 18, at six o'clock.

They are now at home in their new home at South Bend.

BIG HALLOWE'EN PARTY AT MENTONE SATURDAY EVE.

Plans are completed, for the most part, for a big time at Mentone on Saturday evening.

The events of the evening will start at a big masked parade at 7:30 and several dollars in prizes are being contributed by the business people. (Government requests concerning adults being masked on Hallowe'en this year are such that all adults are requested to remove their masks following the parade and awarding of prizes.)

The school band will furnish the music and square dancing will be held at the town hall.

It is expected that bingo will be a feature of the evening and will likely be held at the telephone building.

There will also be the outdoor movie. Everyone is extended an invitation to spend the evening with us at Mentone.

"POSSUM HOLLER" SQUARE DANCE HERE SATURDAY

We've been advised to announce that a "Possum Holler" square dance will be held at the town hall on Saturday night, Oct. 31.

Like the rural lad who was taking his first two-dollar drink in the city, if I wasn't an old square-dancer I'd ask more questions about that "Possum Holler" business.

Anyway, the boys say they have the musicians all lined up and they're looking forward to a big time.

ATTENDS ST. PAUL CONVENTION

Ray Rush, Mentone rural carrier and secretary treasurer of the state Rural Letter Carriers' association, left by train Friday for St. Paul, Minn., where he attended the National Rural Letter Carriers' convention. He returned Tuesday evening.

Sunday evening he visited in Minneapolis with Mr. and Mrs. Lee V. Bybee, former Mentone residents.

Tuesday Mr. Rush and Charles R. Okel of Farmland, Indiana, had a 2-hour wait for a train at Chicago so they visited Lions International, and had a fine time visiting with the officials there.

Mrs. Mary Wise, of Akron, spent Monday forenoon with Mrs. Mary L. Blue.

Miss Mary Ann Gambee spent Sunday afternoon with Miss Jeannine Blue.

Mrs. Adam Bowen is spending the week in Fort Wayne visiting her aunt, Mrs. Joseph Horn.

Mrs. Ida Blue and son Tommy took Sunday dinner at the Pete Blue home.

Mr. and Mrs. Glen Law and Janet Rose, of Oakwood, Ohio, were home visiting over the week end.

Mr. and Mrs. S. L. Snyder, of Flint, Michigan, spent the week end in the home of the former's parents, Mr. and Mrs. Irvin Snyder.

Mr. and Mrs. Roy Brubaker, of Rochester, were Sunday afternoon visitors in the home of Mr. and Mrs. Lewis Foor.

J. W. Aughinbaugh and daughter visited over the week end in South Bend with Mr. and Mrs. Hugh Aughinbaugh and children.

Mrs. Edna Mahoney and Mrs. Veta Leighty have gone to Goshen where Mrs. Leighty will undergo medical treatment.

Mr. and Mrs. Jasper Hatfield, of Warsaw, aunt and uncle of Mrs. Adam Bowen, spent Wednesday and Thursday of last week in the Bowen home.

Word received from Mrs. Etta Coplen by her friends in Mentone, states "she is comfortably located in her home in Warsaw and that she is quite happy."

Mrs. Homer Warren, of Claypool, states that her brother, Pvt. Ralph Good who left for camp at Toledo last Thursday, was home Sunday on a 24-hour leave. He says he thinks he will like it in the service.

Mr. and Mrs. Henry Kuncie and daughter of Elkhart, and Mr. and Mrs. Jack Slabaugh and baby daughter of Warsaw, spent Sunday with Mr. and Mrs. Pete Blue and son Royal.

Mr. and Mrs. George Deamer, of Rochester, entertained Saturday evening, Mr. and Mrs. Roy Adamson, Mr. and Mrs. Glen Law and Mrs. George Deamer, Sr. It was the birthday of Mrs. Deamer, Jr., Mrs. Law and Mr. Law.

LODGE HONORS BROTHERS

The I. O. O. F. of Tippecanoe gave a beautiful farewell to two more of their brothers leaving for camp Saturday. Brother Powers and Brother Johnson were given a nice electric shaving set and dues paid for one year. Patriotic talks were made by many present. Ice cream and cake was enjoyed by all. Music by Brother Harve Elliott and son.

One who was there.

DEAN BECHTOL TO SPEAK HERE NOV. 11

The Mentone Reading Club announces a special meeting on the evening of November 11th, at which time Dean Bechtol, affiliated with the American Legion, will speak.

The community chorus will supply the music for the occasion.

The public is given a cordial invitation to attend.

R. N. A. CONVENTION

The Royal Neighbor District Convention was held at Plymouth, Indiana, Friday, October 23. The afternoon meeting was opened at 2 P. M. with Mayor Abner Broman of Plymouth giving the address of welcome. Response was made by state Deputy Gertrude Hoople of East Chicago, after singing several pep songs and special business. The school of instruction was conducted by Deputy Hoople and Deputy Bidlack of South Bend, Indiana. In the evening the South Bend camp gave the initiation to ten candidates, two of which were from Mentone, Helen Mollenhour and Georgia Dillingham. After camp closed we entertained with special music and a fancy drill given by the Plymouth Camp Fire girls. Those attending from here were Mary Goodwin, Mildred Freisner, Georgia Dillingham, Fern Blue, Della Dillingham, Mabel Warren, Mae Borton, Lydia Reynerson, Emma Cook, Helen Mollenhour and Mary Borton.

Next regular meeting of Mentone camp will be held at the home of Neighbor Mae Borton first Tuesday eve in November.

NO PARTY REFLECTIONS

From time to time, some of our readers may presume that some of my articles are directed for or against one political party, and I prefer that no one get this impression. It is not that I am against political affiliations or parties, nor that I do not have my own preference, but from a newspaper and writer's standpoint I make no effort to aid or abet one party above another.

WE SHOULD THINK MORE

Never a deed was done nor never a word has been spoken that did not have some significance or intended purpose. Even the reflection of the voice often means more than the words that are being spoken. When I say that we should do more thinking I am not referring to the type which makes or prompts us to worry, but the kind of thinking that finds an answer that is logical to us. My conclusion may not agree with yours, but if we exercise our thinking powers we are preparing ourselves for the day when it might mean more to us.

Statements which I may utter may not coincide with what you think or believe, and I may not agree with your version, but if we both think about the other's viewpoint we may both gain much to be desired. Even though disagreeing with you, I trust I shall always be able to agree with Voltaire when he spoke somewhat thus: "I wholly disagree with what you say, but I shall fight to the death your right to say it."

SPORTSMEN BE SPORTSMEN

The fall of the year, to many Americans, is a time for hunting on the lakes and in the fields of our abundant domain. It's the delight of sportsmen and it should remain so. There are many courtesies which

A Cooperative At Work

Hobe and Ora, enthusiastic workers in the Northern Indiana Cooperative Association as members of the Board of Directors, are rival political candidates November 3. The scene above shows them as they "share-a-ride" to the directors' meeting.
—Artist (censored)

should be extended to the landowner, and every hunter should make an extra effort to see that he commits no act which will further jeopardize this glorious privilege.

Landowners, too, sometimes add difficulties to their problems by making their restrictions too burdensome.

Let's all try and be the best kind of sportsmen—and do our level best to eliminate the man who seemingly cannot be a true sportsman.

OUR LAXITY IS PAYING "DIVIDENDS"

If one year ahead seemed as short as one year back, I imagine all of us would do quite differently than we do. We see something which should be done, but then we seem to convince ourselves that it wouldn't pay us to do it.

The illustration at present is the fact that for years we all have known that buying foreign-made products was not doing a bit of good to our country, but we cast the problem aside with the false impression that it didn't matter much or we could do little about it. Our neighbors, friends or total strangers would buy—and often

at a lower figure—so what good would it do for us to refrain from buying foreign-made products.

This writer's pet peeve—at least one of them—has been to get something and find it inscribed: "Made in Japan."

A few years back I came the closest to getting thrown out of a business establishment I ever came because of my exploding when the proprietor offered a made-in-Japan article to me. The tone of my "haven't you anything made in America" seemed to reach a vital spot. I got what I wanted (American-made, too) but the price was \$1 and not 25c. If more people would have refused to buy those foreign products there might not have been quite so many bullets, planes and ships pouring destruction upon our armed forces now.

About 1935 my indignation overwhelmed me and I started a short-lived but determined one-man reform army. Several hundred red, white and blue cards bearing the waving banner of our Nation and among other statements, the words: "Buy America's Products, Build America's Payrolls." My distribution facilities were limited, so I chose the Pathfinder maga-

zine to advertise the program. With advertising at \$49.00 a column inch or 75c per word, I was of necessity a man of few words. And, believe it or not, out of Pathfinder's one and one-quarter million readers, there was only one response.

Americans were too busy trying to amass a fortune, make a living or keep up with the Joneses to do anything that might help in the future. That future, sad to say, is here, and we are all paying a dear price for our laxity a few years back.

Let us not only hold our positions today but do a little extra that we might gain ground in the future.

Buy your coal now—The Coop.

FARM FOR SALE

Byeres-Cook 90 acre farm 5 miles southwest South Whitley, 4 miles east Liberty Mills, 8 miles east North Manchester. On Saturday, November 7th 1942, 10 to 4 o'clock at Law Office of Whiteleather & Whiteleather, Columbia City, Ind. For further information call or write said Office. Good productive Land. Inspection invited.

HUNTERS ASKED TO KEEP WOODS FREE FROM FIRE

Opening day duck hunters last week found the supply of native ducks better than usual and many obtained their bag limit, Hugh A. Barnhart, director of the Department of Conservation, reported today.

With the beginning of the fall and winter hunting seasons, nimrods were reminded of fire-prevention practices while in the woods. Here are some good rules to follow:

1. Smoke only while stopping in places cleared of inflammable materials.
 2. Break your match in two before you throw it away. This makes sure that the match is out.
 3. Be sure your cigarette stub is out before throwing it away. The same goes for pipe tobacco. Never throw them into grass, brush or leaves.
 4. Before building a campfire, scrape away all inflammable material from a spot 5 feet in diameter. Dig a hole in the center and build your fire. Keep it small.
- Put out campfire—dead out—before you leave. Be sure the last spark is dead.

6. Never burn brush in windy weather. Take absolutely no chances.

7. Put out any small fires you can.

8. Report fires at once. Time is most important. Get to the nearest telephone and call the nearest forest ranger or warden.

NUGGETS FOR BEREANS No. 36

The Bible has but one great subject, that subject is centered in a PERSON, and that person is the Lord Jesus Christ. This truth was emphasized the Lord Himself when speaking of the Holy Scriptures, "They testify of ME." (John 5:39).

Christ is the one Master-Key that opens up the whole range of scripture truth. Apart from Him the Bible is meaningless and its subjects are but so many problems to the reader of its pages. The Bible, as a revelation from God to man, is of a unique design, the handiwork of Him who stretched out the heavens, and as in creation, so in revelation, perfection is woven into the whole fabric of this book of God.

How does a Christian live and grow spiritually? In reply to the tempter, Christ said, "It is written, Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God." (Matt. 4:4). In writing to the Corinthians, Paul called them babes, and in need of milk. He wrote the same to the Hebrews in chapter five. What was the milk? It was the simple message of Christ and Him crucified. Strong meat, (solid food) was a much deeper message such as he gave to the Ephesians or the Colossians. In the sixth chapter of John, our Lord makes it plain that life must come from eating the bread of life, and He says, "I am that bread of life."

So we must conclude that life and growth come from the WORD, both the WRITTEN and the INCARNATE. Outside of this there is no life, no

Trophy for Corn Growing Champion

Martha Thiemeyer, attractive member of the Woman's Defense Corps of America, displays the national trophy to be presented in November to the winner of the DeKalb Agricultural Association's National Corn Growing Contest. Over 12,000 farmers from 16 states are entered in the annual nation-wide DeKalb hybrid corn growing contest from which state and county winners will also be selected by the judges. Last year's winner was Evan Sanderson, Flora, Indiana, with 173.03 bushels per acre, and the woman champion was Mrs. Lillian Barger, Rochester, Indiana, with 130.04 bushels per acre.

George Straub, of Mentone, and Miss Maude Stover of Granger were married at Elkhart last Thursday.

The Smith family is so numerous in this county that a new arrival is not usually considered a remarkable event, but the birth of a baby boy to Mr. and Mrs. Vern Smith southwest of town last Friday has some features connected with it that are quite interesting. The little newcomer is the seventh son born to Mr. and Mrs. Smith and 6 of the 7 were born on Friday, the last arrival coming on the birthday of the oldest, which,

occurred on Friday just 14 years ago. Vern can boast of the finest lot of boys of any man in the county.

The editor of the Bourbon News mentions a case that he names "pure cussedness." Some fellow threw a brick into his freshly made cement walk in front of his office. The editor makes the harsh suggestion the "the fellow who did it hasn't brains enough to grease a gimlet."

Misses Bess Shafer, Sarah Jefferies and Lena Gerard visited at Tippecanoe last Friday and Saturday. They were guests of Ethel Sander.

12% INCREASE IN EGG PRODUCTION U. S. GOAL!

It's a Cinch! We
Increased Our Egg
Yield 33 1/2%

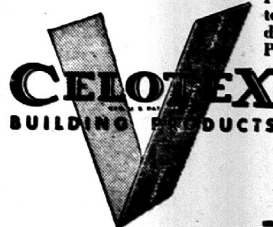

"Our egg production used to be as up-and-down as a ride on a roller coaster. That's because every time the temperature took a nose-dive, we were too busy keeping warm to bother about laying eggs. Then our boss insulated our laying house with Celotex Vapor-seal Sheathing. Since then we've consistently turned out a third more eggs from the same-sized flock."

Progressive poultrymen are guaranteeing their quo-

tas in Uncle Sam's "Food for Freedom" program by insulating their buildings with Celotex Vapor-seal Sheathing. By maintaining constant, warm temperatures in laying houses, this efficient structural insulation encourages increased egg production. Used in brooder houses, Celotex Insulation also aids chicks to grow rapidly and feather out evenly.

Put Your "Egg Factory" on a War Production Basis. Our Free Plans Tell You How!

Leading Poultrymen know that the Celotex Poultry Building Plans are the last word in modern poultry house construction. Come in for your free copies today!
